# Design For Maximum Customer Impact, Experience And Bottom Line

We believe that to convey a message and provide maximum and effective impact requires an attention to not only the quality of manufacturing and finished product, but begins with creative, cost-effective, yet innovative design.

We are professionals in the design, manufacturer, and export of various types of retail and point-of-purchase (POS) equipment and materials. From store equipment, display fixtures, custom made point-of-sale stands, components, and more, we have been serving customers professionally for over 15-years.

## We Specialize In.....

- Custom design and production from metal tube, wire and sheet materials of steel, aluminum, stainless steel, and other/custom materials
- Professional surface finishings, including powder coating, chrome plating, zinc coating and anodizing
- Aside from our inhouse production strength, we have ability and knowledge to help customers subcontract out other forms of raw materials components
- Fabrication in plastics, including injection, vacuum forming, extrusion and others
- Fabrication in acrylics, PVC sheet, PP corrugated sheet
- Logo/sign/sticker printing on any materials
- Banner printing
- Custom requests and requirements of all kinds -- please contact us for requests, help and information
